## Important Reasons

WHY HERRING-HALL-MARVIN SAFE CO.'S SAFES AND LOCKS ARE THE BEST

The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent BOLT-WORK is superior to any in use, and does not require constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for County Treasurers, County Recorders, County Clerks, Jewelers, Hotels, Residences, Churches and Corporations. We have a Large Assortment of Safes on hand and will be pleased to show same.

## LEPER SETTLEMENT INMATES EXPRESS SATISFACTION OVER THE PRESENT TREATMENT ACCORDED THEM

At about 11 o'clock last Saturday night the steamer Kinaw, which had been put at the disposal of the Legislature committee, started from the Kinaw wharf, with the visitors for Kalaupapa. The purpose of the trip was for the committee to make a thorough investigation of the conditions at the leper settlement and to see what must be done for the unfortunate people confined there.

#### Excessive Rain.

The visit was greatly marred by the excessive rain which continued to fall all through the day and the storm necessarily prevented the committee members from making as far-reaching an investigation as they would have been able to make under more favorable circumstances. Still they managed to cover a good deal of ground despite the inclemency of the weather, and found out from the lepers themselves what they wished to have done for them by the Legislature.

#### Arrival at Kalaupapa.

After a pleasant passage across the channel, the Kinaw arrived at Kalaupapa at about 6:30 in the morning. After having breakfasted on board, the visitors immediately started ashore. On the landing Superintendent McVeigh and Deputy Sheriff Hitchcock greeted the visitors. It had been planned that the numerous visitors, who accompanied the legislators, in order to visit relatives and friends at the settlement, should be confined in the stockade in the place of letting the visitors roam around at will and mix with the lepers, but the rain made this plan impossible and it was found necessary to throw open Mr. McVeigh's house to all the visitors.

As a consequence, the long lanais of this house were crowded all through the day by the visitors, the rain keeping them from venturing out very far. In the house next to that of the Superintendent, the Territorial band under Captain Berger held forth most of the day, as the rain prevented the musicians from going to Kalaupapa, as had been planned.

#### At Bishop Home.

The first place visited by the committee was the Bishop Home for Women. Superintendent McVeigh, who, despite the fact that he was suffering from a severe attack of fever, was indefatigable in showing the committee around. He led the legislators and introduced them to Mother Marianne, the matron of the Bishop Home. After a few vocal and instrumental selections, given by the Home's glee club, Senator Kalaupapa, in a short speech to the inmates of the Home, exhorted

them to answer truthfully all questions which the committee members might ask, and told them to remember that the committee was there to help and provide for them. Mother Marianne was asked a number of questions by members of the committee. The gist of her answers was that the Home was well supplied with food, clothing and other necessities, and that everything was satisfactory. The only thing needed by the Home was a large hospital and a home for the blind. Mr. McVeigh stated that in his estimate to the Board of Health, he had asked for thirty new buildings, of which five were wanted for the Bishop Home.

#### Are Well Supplied.

The inmates of the Home in answer to questions from the legislators stated that they were well supplied with everything with the exception of the Goto medicines, which they had found to be useful in staying the ravages of the disease and in improving their appearance.

#### Start for Kalaupapa.

The committee secured mounts and started for Kalaupapa. The trip was made in a driving rain which split up the party considerably. The Baldwin Home for boys was the object of an investigation. It was found that food and other necessities were being supplied in sufficient quantities. The boys also wanted the Goto remedies, which were said by Brother Dutton of the Baldwin Home to be valuable as a cleaning medicine, although not a cure. There were several minor complaints made, but upon the whole the inmates of the Home showed general satisfaction.

The committee on its return from Kalaupapa to Kalaupapa again encountered the worst kind of weather. On the arrival at Mr. McVeigh's house, lunch was partaken of with the band rendering several selections while the meal was indulged in.

#### At Beretania Hall.

In the afternoon, a large meeting was held in Beretania Hall. Although the rain was still falling, a large number of lepers were gathered to confer with the committee.

#### Senators Make Speeches.

Senators Kalaupapa and Cecil Brown made speeches to the lepers in which they told them to lay forth such complaints as they might have. W. O. Smith and Prince Jonah Kamehameha spoke of the efforts to be made to prevent the control of the settlement to pass into the hands of the Federal Government.

Among the petitions made to the

committee were several asking for increase in the supply of palai, beef, mutton and cordwood. They also wanted to plant taro to sell to the settlement and wanted a school house at Kalaupapa.

#### Goto Medicines Wanted.

One thing especially wanted was the Goto medicines, in which the lepers seem to have a great deal of faith, only a few, like Ambrose Hutchinson, dissenting from this view. There were many who wanted Dr. Goto's services secured for the settlement, while others wanted a white doctor.

#### Back to Steamer.

Soon after the end of this conference, Senator McCallend gave the word to go back to the steamer, and, after the rendition of a few musical selections by the bands and a quiet club, the visitors started.

At 5:45 p. m. the Kinaw started on her way to Honolulu, where she arrived at about 11:30 p. m. Sunday.

Following were the passengers in the Kinaw who took the trip: Prince Kūhio, Speaker Beckley, Bandmaster Berger, William Savidge, R. A. Kearns, I. R. Cockett, E. J. Crawford, W. H. Thornton, D. ## DEATH OF A MAUIAN

Walluku, April 4.—Henry Tallent, a half-white aged 40 years, died at his home in Walluku last Monday evening March 30, of pneumonia. Mr. Tallent was a very intelligent and industrious Hawaiian. He was for many years employed as assistant sugar boiler at the Walluku Sugar Company by whom he was regarded in the highest esteem not only as a steady, reliable employee but also because of his excellent traits of character.

Tallent was considered a first sugar boiler. Deceased was for some time during 1897 clerk of the Second Circuit Court when the late G. Armstrong, clerk of this court, was away on a leave of absence.

Mr. Tallent leaves a young wife and three children, the youngest of whom is only a few weeks old, and several other relatives, to mourn their loss. The funeral took place from the late residence Tuesday afternoon, the services being conducted by the Haleakala Lodge, native K. of P., of which he was a member.

#### MAUI RACE MATTERS.

Walluku, April 4.—The annual meeting of the Maui Racing Association will take place in the court house this Saturday evening. As President A. N. Kopekai is away in Honolulu, another suitable person will be nominated and appointed this evening to navigate the affairs of the association. A large attendance of local sportsmen is expected. An effort will be made at the meeting to arrange for large purses for the coming July 4th races at the Kahului track in order not only to encourage owners of local flyers, but also to induce Honolulu and Hilo sportsmen to bring their favorites to Maui this year and compete with Maui-bred horses. Those in charge of the races will see that the events this year will be a success and worth the while of Honolulu people to come over and endeavor to wrest away some of the purses as they did last August 12th.

#### WAIHOLE BETTER.

Walluku, April 4.—Ed Waihole, policeman of the Pioneer Mill Company, who broke his right leg some two months ago by falling from a horse, has so far improved that he has resumed his duties at the plantation, going about in a brake. He still uses his crutches. Dr. Peters, the Plantation doctor, has been attending to Mr. Waihole's injured limb.

#### NEWS SOOTHES MAUI.

Walluku, April 4.—The wireless news that the Home Rule county measure has been tabled in the House and that the Republican bill has been referred to conference committee of both houses has a soothing effect on Maui.

\*\*\*\*\*  
The Hawaiian Congregation will meet for the election of officers, and other business.

## A QUESTIONABLE JOKE

Walluku, April 4.—The worse than practical joker has made its appearance in Walluku, and this took place on April Fool's Day. Of course, it took two or more to make the combination complete. Frank Sylva, of Waikapu, has been suffering with an unbalanced mind for several weeks and is now very low. On the day in question the practical joker spread the news around town that Frank Sylva was dead, and this being of too serious a nature soon escaped beyond the limits of Walluku district.

Relatives of the supposed dead man at Olowalu made preparations to come over to Walluku to attend the funeral, but half way over they were told that Frank was still alive. They are now looking around for the parties concerned in this questionable joke just to show the senseless joker that death is of too serious a nature to be playfully dealt with in this manner. But the fools are not all dead yet.

#### INSPECTION OF SCHOOLS.

Walluku, April 4.—Chas. E. King, Inspector of Schools, completed this week making an official visit to Waikapu, Wahee and Walluku schools, and reports fair progress among these. Mr. King went to Lahaina yesterday afternoon to meet his wife, and both will return to Makawao next Sunday where they will spend their well-earned vacation after months of hard toil, visiting schools in the out of the way districts, such as those on the windward of Molokai from Kalaupapa to Halawa—very inconvenient places to approach, especially during rough weather months.

#### CABLE BROUGHT COLD WEATHER.

The cold weather of the two months past has been the cause of much comment among the natives on account of the fact that such a long spell in Honolulu was never known before. A group of Hawaiians were sitting together the other day, talking on this very subject and in the midst of it all one old fellow, in all seriousness, said he had solved the problem. The cold weather was undoubtedly due to the cable which had connected the tropical shores of Hawaii with the cold Mainland.

#### MONEY FOR LEPER BANDS.

During the visit of the legislators at the leper settlement, a purse of \$30.50 was subscribed to by the members of the legislative party, this sum to be evenly divided between the Kalaupapa and Kalaupapa brass bands for the purchase of instruments and music. The subscription was started by W. J. Coelho, interpreter of the House of Representatives.
